To: Matt Deane, SC22 Secretariat, ANSI

Dear Mr. Deane:

As per SC36 Adelaide Resolution #4 (SC36/N0230):

Referencing Document SC36/N0212, SC36 has decided to gauge the level of interest in its SC22/WG20 on internationalization. Some of the work in SC22/WG20 is particularly useful, such as the character set classifications, sorting, identifier characters, etc..

SC36 has an interest in both the internationalization work and the character set harmonization work of SC22 because it affects current and future SC36 projects. SC36 instructs its Secretariat to formally notify SC22 that SC36 is dependent upon several SC22 activities.

Please keep SC36 informed of your activities.

Sincerely,

Tony Monaco
SC36 Secretariat
