## New Papers

- N4667 is the current working draft for the Module TS. It replaces N4647.
- N4668 is this Editor's Report.

## Notable Editorial Changes

- Referenced N4660 as the C++ standards (Working Draft from the post-Kona mailing)
- Splitted Clause 1 into 4 clauses, as per new ISO editorial guidelines: Scope, Normative references, Terms and definitions, General.

The net effect is that all references in the universe to the Standards and to the Module TS draft are bumped by 3.
