

Ordering rules for Thai and Lao

Introduction

The collation rules for Thai, and probably also Lao, in the 14651 CTT (and the UTS 10 data files) do not follow the (informal) collation rules given in annex C.2,Thai string ordering, of ISO/IEC 14651. (After some discussion, these rules have been amended somewhat, see below.) The following text is a quote from ISO/IEC 14651 beginning of annex C.2:

The widely accepted standard for Thai lexicographical ordering is defined in the Royal Institute Dictionary 2525 B.E. Edition (1982 A.D.), the official standard Thai dictionary. The ordering principles are:

- Words are ordered alphabetically, not phonetically. Consonants order is:

ກ ໂ ພ ຂ ຕ ແ ພ ຈ ປ ຊ ພ ປ ໂ ປ ປ ປ ປ ປ ປ ປ ປ ປ ປ ປ ປ

(ଏ ଇ ଉ ଗୀ are vowels and ligatures, but put in the order according to the sounds they represent.)

- Vowels are also ordered by written forms, not by sounds. Vowels order is:

၁၁၁၈ ၂၀၁၃ ၁၁၁၈ ၁၀၁၃ ၁၁၁၈ ၁၀၁၃ ၁၁၁၈ ၁၀၁၃

(ଓ ব ঘ are always ordered as consonants, although they sometimes act as vowels.)

- String comparison is performed from left to right, but considering initial consonants before vowels in the same syllable.
 - Tones and diacritics are ignored at level 1, at level 2 the order is:

60 1 2 62 +

LAKKHANGYAO is a vowel, a variant of SARA AA. LAKKHANGYAO should be ordered as a variant of SARA AA, or just before SARA AA, and no collating elements (contractions) should be defined for the combinations using LAKKHANGYAO above.

Annex C.2, later continues:

- Leading vowels (𠂊- 𠂉- 𠂆- 𠂇- 𠂈- , corresponding to characters U+0E40-U+0E44), which are written before consonants, must be considered after the initial consonant. Therefore, the rearrangement is needed before comparison.
 - Diacritics and tone marks (-[᠁]- . -[᠁]- -[᠁]- -[᠁]- -[᠁]- -[᠁]-) must be ignored in the first pass, and be considered at later pass if the first pass yields equality.

Even later:

Dependent vowels (and would-be dependent vowels) are ordered like dependent vowels for Indic scripts, at the very end of the weighting scale for level 1, along with Hangul vowels.

Note also that PAIYANNOI is regarded as a punctuation mark.

Below, formal ordering rules that attempt to follow the informal description (amended after discussions) in that annex are given. Digits and currency symbols are not covered below. However, NIKHAHIT is not covered above, but is below regarded as significant on level 1, as a dependent letter ordered before the vowels.

The rules below also contain a number of contractions. These are not explicitly declared here, even though that need be made for a complete 14651 style set of ordering rules. The contractions are easily inferred by the names of the contractions. Using these contractions, special prehandling for Thai and Lao (which is now specified in UTS 10) is no longer needed (if it is decided to accept this part of this proposal). This method works very well with ISO/IEC 14651, which does not require that there is any prehandling at all. Indeed this way both 14651 implementations and UCA implementations can achieve the same results for Thai and Lao.

Amendments after Theppitak Karoonboonyanan's investigation of how to handle unclear cases:

ກ ແ ຂ ດ ຕ ຖ ພ ຈ ອ ຊ ທ ປ ປ ປ ປ ປ ປ ປ ປ ປ ປ ປ ປ

ບ ປ ພ ຜ ພ ພ ພ ພ ພ ພ ພ ພ ພ ພ ພ ພ ພ ພ ພ

- ° - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - . (where - is a consonant)

- ε - □ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - ጀ - . (where - is a consonant or vowel)

ຄວນ ວິ ຢ ອ ຖ ບ

Suggestion for the CTT (and UCA default table) for the Thai and Lao scripts follows:

Suggested changes to UTS 10

Apart from the implied data file changes, section 3.1.3 in UTS 10 on *Rearrangement* can be removed, as these rearrangements are now instead handled by the contractions mechanism, as listed above.

This further implies that section 3.2.1 should not deal with any ‘rearrangement lines’, which are already(!) obsolete. Likewise should step S1.2 be removed, and conformity clause C3 should not mention rearrangement.

Thanks to Theppitak Karoonboonyanan for helping me with the Thai rules (and I have inferred Lao rules from that). Any errors or shortcomings here are of course mine (especially since I’ve done some interpretations and changes).
